*Built to Deliver. Engineered to Lead.*

## About Company

ORM USA is a cross-continental manufacturing force, rooted in precision and driven by purpose. We specialize in plastic molding, metal casting, forging, machining, and fabrication, delivering custom-engineered solutions at scale. With operations in both India and the U.S., we bridge global efficiency with local quality.

Our commitment lies in manufacturability, consistency, and value—ensuring every product not only meets expectations, but exceeds them. At ORM, we don't just build parts. We build partnerships, performance, and long-term trust.
